

A PATTERN BY
**ELIZABETH
HARTMAN**

BONUS PROJECT!

Use the applique pattern on this sheet to make glasses for your Fancy Fox blocks!

FANCY FOX GLASSES

Making the applique

1. Use a pencil to trace the glasses shape onto the paper side of a small piece of lightweight fusible web.
2. Follow manufacturer directions to press the fusible web onto the wrong side of a slightly larger piece of fabric.
3. Use craft scissors to cut out the glasses shape.
4. Carefully peel away the paper backing and arrange the glasses, glue-side-down, on your fox block. Follow manufacturer directions to fuse the applique shape to the block.
5. Use a zigzag or satin stitch to sew around the raw edges of the applique shape.

Before you trace the glasses onto the fusible web, check to make sure the pattern is the right size by placing your ruler over the 1" mark in the lower-left corner. If it matches, the pattern is the right size. If it doesn't match, print this page again, making sure to select "no scaling" or "print at 100%."

The Fancy Fox pdf pattern and a list of print pattern stockists are available at **OHFRANSSON.COM**.
